DATASHEET

Amidepsine D

Product overview

Name	Amidepsine D
Cat No	HB3762
Purity	>95%
Description	Diacylglycerol acyltransferase (DGAT) inhibitor

Biological Data

Biological description	Diacylglycerol acyltransferase (DGAT) inhibitor. Excessive accumulation of triacetylglycerol produced by DGAT may cause fatty liver, obesity and hypertriglyceridemia, which may lead to atherosclerosis, diabetes and metabolic disorders.

Solubility & Handling

Storage instructions	+4°C
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Molecular Weight	496.5
Chemical structure	CAS Number	79786-34-8
InChiKey	KODVVMZOLYYCMV-UHFFFAOYSA-N
Appearance	White to light pink powder
