DATASHEET

Gramine

Product overview

Name	Gramine
Cat No	HB0305
Biological action	Antagonist
Purity	>99%
Description	5-HT _{2A} receptor antagonist

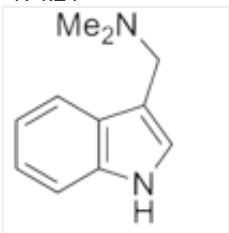

Biological Data

Biological description	5-HT _{2A} receptor antagonist. Inhibits superoxide dismutase (SOD). Also affects growth and reproduction in rats. Shows vasodilator actions.
-------------------------------	---

Solubility & Handling

Storage instructions	Room temperature
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Molecular Weight	174.24
Chemical structure	
Molecular Formula	C ₁₁ H ₁₄ N ₂
CAS Number	87-52-5
PubChem identifier	6890
SMILES	CN(C)CC1=CC=CC=C2C1=CC=CC2
