DATASHEET

5-Methoxysterigmatocystin

Product overview

Name	5-Methoxysterigmatocystin
Cat No	HB3727
Purity	>98%
Description	Mycotoxin. Derivative of sterigmatocystin.

Biological Data

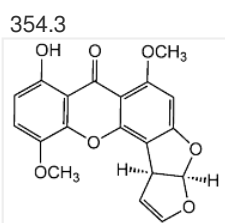

Biological description	Mycotoxin. Derivative of sterigmatocystin. Carcinogenic activity. Anticancer compound. Cytotoxic and genotoxic.
-------------------------------	---

Solubility & Handling

Storage instructions	+4 °C
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Molecular Weight
Chemical structure

CAS Number	22897-08-1
PubChem identifier	0
SMILES	<chem>COc1ccc(O)c2C(=O)c3c(OC)cc4O[C@@H]5OC=C[C@@H]5c4c3Oc12</chem>
InChiKey	VVRUNWFPOWIBDY-WPCRTTGESA-N
Appearance	Pale yellow powder
