DATASHEET

MK-571 sodium salt

Product overview

Name	MK-571 sodium salt
Cat No	HB3976
Biological action	Antagonist
Purity	>97%
Description	Selective leukotriene LTD4 receptor antagonist. Potent MRP1 inhibitor.

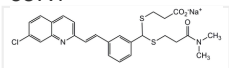

Biological Data

Biological description	Selective leukotriene LTD4 receptor antagonist. Potent MRP1 inhibitor. Antinociceptive.
-------------------------------	---

Solubility & Handling

Storage instructions	+4 °C
Solubility overview	Soluble in water (25mM) and in EtOH (10mM)
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Molecular Weight	537.1
Chemical structure	
Molecular Formula	C ₂₆ H ₂₆ ClN ₂ NaO ₃ S ₂
CAS Number	115103-85-0
InChiKey	XNAYQOBPAXEYLI-AAGWESIMSA-M
Appearance	Light yellow solid
