DATASHEET

Pimprinine

Product overview

Name	Pimprinine
Cat No	HB4028
Purity	>98%
Description	Monoamine oxidase (MAO) inhibitor

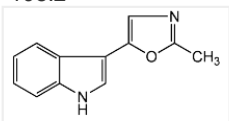

Biological Data

Biological description	Indole alkaloid. Monoamine oxidase inhibitor (MAOI). Antiepileptic (anticonvulsant) compound. Inhibitor of platelet aggregation and thromboxane A2 synthesis. Weak antifungal and antituberculosis activity. Useful as lead structure for potent antifungal substances.
-------------------------------	---

Solubility & Handling

Storage instructions	+4 °C
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Molecular Weight	198.2
Chemical structure	
CAS Number	13640-26-1
PubChem identifier	0
SMILES	<chem>Cc1oc(c[nH])c2c[nH]c3ccccc23</chem>
InChiKey	WZJPGCHCOHYLMB-UHFFFAOYSA-N
Appearance	Pale yellow powder
