DATASHEET

Pyripyropene A

Product overview

Name	Pyripyropene A
Cat No	HB4044
Purity	>95%
Description	Highly specific acyl-coenzyme A cholesterol acetyltransferase 2 inhibitor

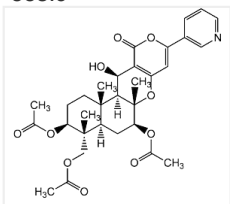

Biological Data

Biological description	Antibiotic. Highly specific inhibitor of acyl-coenzyme A:cholesterol acetyltransferase 2 (ACAT2). Anti-angiogenic. Antiatherogenic and antiatherosclerotic agent. Shows cholesterol-lowering and atheroprotective activities.
-------------------------------	---

Solubility & Handling

Storage instructions	+4 °C
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Molecular Weight	583.6
Chemical structure	
CAS Number	147444-03-9
InChiKey	PMMQOFWSZRQWEV-RVTXXDJVSA-N
Appearance	Pale pink to rusty brown solid
