DATASHEET

Z-Leu-Leu-Nva-CHO

Product overview

Name	Z-Leu-Leu-Nva-CHO
Cat No	HB4136
Purity	>95%
Description	Potent, reversible and cell permeable proteasome inhibitor

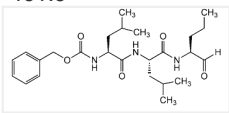

Biological Data

Biological description	Potent, reversible and cell permeable proteasome inhibitor. Specifically inhibits the chymotrypsin-like activity of the proteasome. Calpain and cathepsin inhibitor. Apoptosis inducer in Rat-1 and PC12 cells via a p53-dependent pathway. Autophagy activator.
