DATASHEET

Erythrosin B

Product overview

Name	Erythrosin B
Cat No	HB0759
Alternative names	Solvent Red 140; tetra-iodo fluorescein; Ery B; Erythrosin; Erythrosine
Biological description	Photosensitizing vital exclusion dye. Synthetic dye and stain. Induces net release of transmitters via vesicles and selectively inhibits neuronal uptake of catecholamines.
Biological action	Dyes & stains
Description	Photosensitizing vital exclusion dye

Solubility & Handling

Storage instructions	Room temperature
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Chemical name	Solvent Red 140; Tetraiodofluorescein; Erythrosine
Molecular Weight	835.89
Chemical structure	
Molecular Formula	C ₂₀ H ₈ I ₄ O ₅
CAS Number	16423-68-0
PubChem identifier	0
SMILES	<chem>C1=CC=C2C(=C1)C(=O)OC23C4=CC(=C(C(=C4OC5=C(C(=C(C=C35)I)O)I)I)O)I</chem>
