### Product overview

|                               |                                                                                                                                                                                  |
|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Name</b>                   | Antibody Diluent                                                                                                                                                                 |
| <b>Cat No</b>                 | HB8223                                                                                                                                                                           |
| <b>Biological description</b> | Diluent used to dilute primary antibodies to suitable working concentrations (e.g. for IHC) or for storage. Reduces background and non-specific binding of the primary antibody. |
| <b>Biological action</b>      | Buffer                                                                                                                                                                           |
| <b>Applications</b>           | ELISA, ICC, IHC, WB, IHC(IF), Histoblot                                                                                                                                          |
| <b>Description</b>            | Diluent used to dilute primary antibodies or for storage                                                                                                                         |
